

Contracts Managers wanted!

Contract Managers are the backbone of our operations here at Central. Successful candidates will be overseeing multiple exciting projects at the same time, managing site managers and supervisors, and ensuring labour and materials are on task for projects.

You will be helping to deliver over *£28 million* of building contracts to build, maintain, and refurbish. Ensuring health and safety protocols - construction phase plans, risk assessments, and method statements.

What to expect day-to-day

- Plan projects and ensure they are programmed to a level of detail necessary for the site team to deliver the project without delays
- Attend project handover meetings and deliver pre-start meetings to our site team
- Maintain and manage our operatives on-site and other trades - ensuring site team compliance with Central policies and procedures
- Set the highest possible standards of leadership in the promotion of HS&E procedures and best practices, ensuring compliance with Central procedures and legal obligations.

This role offers

- Significant opportunity, overseeing multiple projects for global brands
- Incredible potential, as the next phase in our company's growth takes shape
- Our leadership, diversity and culture means you will be supported every step of the way
- We offer good salaries, bonuses, well-being support and high rates of promotion

Advantageous (but not essential) criteria

- A CSCS Card (for managerial and technical occupations)
- Experience in bituminous and liquid applied membranes
- Experience in sheeting and cladding

If this sounds like a good fit, or you require more info, apply via LinkedIn or give Central HR an e-mail at HR@centralroofing.co.uk
